

April 21, 1975

this amendment would leave the District Court in the function that it now and historically has performed in a workmen's compensation procedure in that it would be the intermediate step from the Workmen's Compensation Court through the District Court to the Supreme Court and remember that these District Courts are located throughout the state and that they are District Courts and those District Judges do have local knowledge and I believe that the wisdom there will be better than it will be in the one concentrated Workmen's Compensation Court and the Supreme Court.

PRESIDENT: Senator Murphy.

SENATOR MURPHY: A question of Senator Kennedy. In so doing, Senator Kennedy, are you eliminating the addition of another...or Kelly. Are you eliminating the need for the additional judge, then?

SENATOR KELLY: Senator Murphy, if we took out the District Court and took out the extra judge, we would take out the bill. The thing I am interested in at this time is in staying in the District Courts.

SENATOR MURPHY: Your first idea...statement may not have been too bad, but if you stay in the District Court, I am asking then, are you removing the request for the addition of another judge, inasmuch as, apparently, we will have no additional need. We will have the District Court remaining in its position to hear these cases. Do we, then, need another Workmen's Comp judge, too.

SENATOR KELLY: If in our wisdom we would see fit to do that, why then a kill motion would be in effect because that is the only two things in the bill and I haven't addressed myself to the judge part as it would appear to me that that possibly would be true that if we leave the District Court in.

SENATOR MURPHY: You will leave the District Court in and add the judge.

SENATOR KELLY: That is the way the bill would read with my amendment, yes.

SENATOR MURPHY: Here come the judge.

PRESIDENT: Senator Luedtke.

SENATOR LUEDTKE: Mr. President, a question of Senator Kelly.

SENATOR KELLY: Yes sir.

SENATOR LUEDTKE: Senator Kelly, it was my understanding that with the DeCamp amendment, this was the way I understood it at least, that the District Judges were put back into the bill because on Page 5, line 14, the new matter was stricken and there was reinserted and reinstated, "and the District Court", and it dealt with lump sum settlements, the thing you are talking about and then, Page 6 after period, line 21, this amendment which we have passed now said, "If such application is approved by the Nebraska Workmen's Compensation Court, the application shall be submitted to a judge of the district court in the county where the accident
